

A Message from Scott

Greetings

My name is Scott MCDONALD and I am asking for your vote. I've lived in big cities, such as Toronto and Tokyo, and small hamlets, like the one I grew up in of than 200 people. I landed in Colwood just over 10 years ago and I honestly think it is the best community on the planet. I am university educated, fluent in 3 languages, and began my career teaching. I love travel, hiking, gardening, and volunteering in my community. I have a healthy respect for the environment, but understand we need development for jobs, to keep people in our community—while preserving Colwood's uniqueness.

Platform I support the Official Community Plan (OCP) and as a Colwood Councillor would advocate for solutions to: **Housing Affordability, Transportation Solutions, and Fiscal Responsibility.** I also support the establishment of an Arts Centre here.

Housing everyone deserves a home. Using the tools available, I will advocate **solutions** for: the hard to home, housing affordability, and the preservation of neighbourhoods.

Transportation I will work with all levels of government and other municipalities and **push** for collaborative, innovative solutions from day one.

Fiscal Responsibility I support increasing jobs through mixed (not high) medium density development to keep Colwood's residents, working and playing in their community. We **must** reduce the burden on the taxpayer, increase our reserves, and plan for the future.
